Email: ayushranjan4242@gmail.com
Mobile: +91-7903843769

SKILLS

- Languages: C++,Python , C, JavaScript, PHP, Java, Kotlin
- Libraries & Frameworks: React.js, Express.js,Tailwindcss
- Tools/Platforms: MySQL, MongoDB, Android Studio
- Soft Skills: Problem-Solving, Team Player, Time Management, Adaptability

INTERNSHIP

Vanillakart (Subsidiary of Emvity Brushflicks Creative Hub Pvt Ltd.) Sep 2025 – Nov 2025

- Developed responsive web interfaces at Vanillakart by redesigning front-end components, improving mobile usability and cross-device compatibility by 30%..
- Optimized website performance and navigation flow using frontend optimization techniques, reducing page load time by 20% and enhancing user experience.
- Customized WordPress-based sections and implemented interactive UI elements while collaborating in an Agile development environment using Git for version control.

PROJECTS

Role-Based Job Portal Web App| React, TypeScript, Supabase | GitHub March 2026

- Built a full-stack role-based job portal enabling Candidates, Recruiters, and Admins to interact through secure dashboards with structured hiring workflows and real-time application tracking.
- Engineered a responsive React + TailwindCSS frontend featuring dynamic job listings, ATS-based resume scoring, recruiter dashboards, and advanced applicant filtering for efficient talent management.
- Integrated Supabase authentication, role-based access control (RBAC), RESTful APIs, and database-driven workflows to ensure secure data handling, scalable performance, and seamless multi-user interaction.

Heavy Metals Pollution Indices Web App | MERN, TailwindCSS, Vite | GitHub November 2025

- Architected a scientific web platform that computes and visualizes heavy metal pollution indices (HPI,MPI,CF,PLI) to support environmental analysis workflows.
- Designed a responsive React + TailwindCSS interface featuring structured sample-entry flows, interactive dashboards, and dynamic pollution-trend charts.
- Enabled secure authentication, MongoDB-based data management, and modular Node.js/Express APIs with embedded index-calculation algorithms to deliver accurate, research-ready insights.

TRAINING

DSA Learn & Build Projects | C++

- Constructed a Java Swing–based Bank Fraud Detection System with real-time transaction monitoring and color-coded risk levels (green: normal, yellow: suspicious, red: highly suspicious June–July 2025
- Implemented secure admin and customer portals enabling profile management, account monitoring, account freezing, and real-time tracking of transaction activity.
- Achieved practical outcomes by reducing manual fraud review effort, improving response time for account freezes, and strengthening overall system reliability and decision-making.

CERTIFICATES

- Master-Generative AI & A.I Tools –Certified by Udemy | Link August 2025
- Cloud Computing - Certified by NPTEL | Link August 2025
- Problem Solving Intermediate – Certified by HackerRank | Link July 2025
- DSA [Learn and Build Projects] | Link June 2025

ACHIEVEMENTS

- Solved 375+ Coding Problems of DSA across LeetCode, GFG & HackerRank . September 2025
- Achieved a LeetCode Contest Rating of 1527 through consistent competitive programming. August 2025
- Secured 4th Position in a Hackathon organized by EventEye. October 2024

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology – Computer Science and Engineering; CGPA: 7.92 August 2023 – Present

- **Vidya Niketan School** Sheikhpura, Patna
  Intermediate; Percentage: 83 April 2022 – March 2023

- **Sri Sai Public School** Sangareddy, Telangana
  Matriculation; Percentage: 91 April 2020 – March 2021
